Release 28 & 29

Date of release start: 11-July-2023

Closed Date of release: 28th-July-2023

TICKET ID	CHANGE	ISSUE TITLE
#2752	Defect	**AI:** Error in the log files in meaAiEngine function
#2954	Defect	**MEA platform:** Not able to see submissions in Triage when search based on LOBCODE.
#2962	Feature	**AI:** Donut model training and testing
#3153	Feature	**GlobalOps – Extraction Tool**: Fetch the Merged file. XLSX file attachment name and extracted file from S3 - 5
#3154	Feature	**GlobalOps Extraction tool:** Populate the File list dropdown with the _merged and xlsx filenames 6
#3170	Feature	**Global Ops - Extraction Tool:** Display a pop box to map the bounding box with entity name – 8
#3171	Feature	**Global Ops - Extraction Tool:** Copy the entity value, page number and Co-ordinates for the bounding box to the Right side – 9
#3176	Feature	**GlobalOps - Extraction Tool:** Users must be able to delete bounding boxes – 12
#3229	Defect	**API Test Automation:** Test automation execution failed when submission is auto rejected by system
#3301	Enhancement	**GlobalOps – Extraction Tool**: Xlsx file UI should be fixed
#3309	Feature	**GlobalOps – Extraction Tool**: Generate Images for the Merged pdf to be displayed in the tool
#3369	Feature	**GlobalOps – Extraction Tool**: Pdf Image Zoom In & Zoom Out
#3372	Defect	**AI:** Extraction issue for date and multiline extraction
#3373	Feature	**GlobalOps – Extraction Tool**: Toggle between full extracted file and summary details

#3374	Feature	**GlobalOps – Extraction Tool**: When the user clicks on close button (X) check if any unsaved data is present and prompt
#3375	Feature	**GlobalOps – Extraction Tool**: Show the detailed extract file on the right side
#3376	Feature	**GlobalOps – Extraction Tool**: Show the summary extract file on the right side
#3377	Feature	**GlobalOps – Extraction Tool:** Default View - Expand/Collapse for the right-side pane
#3381	Feature	**GlobalOps – Extraction Tool**: Highlight the text for which co-ordinates are already present in the extracted file
#3382	Defect	**GlobalOps:** "Misalignment of Refresh Interval drop down when resolution is 100% or more than 100%"
#3389	Feature	**GlobalOps – Extraction Tool**: populate entity names based on the template in popup
#3390	Feature	**UI Automation:** Mark complete run validation and Date format failed scenario part 1
#3398	Feature	**GlobalOps – Extraction Tool**: we cannot see the drop down when the bounding box drawn towards the end of the document
#3399	Feature	**GlobalOps – Extraction Tool:** Hide entity names for which no output values are present
#3402	Feature	**GlobalOps – Extraction Tool**: Bounding box should remain on the page after associating a value to the Entity name
#3403	Defect	**GlobalOps – Extraction Tool**: by default, bounding box should be enable.
#3404	Feature	**GlobalOps – Extraction Tool**: Any values updated in excel should be reflected in summary tab as well.
#3405	Feature	**GlobalOps – Extraction Tool**: Populate co-ordinates, page numbers for multiple values in Output columns
#3407	Feature	**GlobalOps – Extraction Tool**: By default, disable tick icon in bounding box popup
#3408	Enhancement	**GlobalOps – Extraction Tool**: Change in object of coordinates in right side of QA extraction tool
#3409	Feature	**GlobalOps – Extraction Tool**: Navigation to next page should only work for left side

#3410	Feature	**GlobalOps – Extraction Tool**: Make the Output values to be editable in Summary mode
#3411	Feature	**GlobalOps – Extraction Tool**: Populate the name of the user modifying a entity name value
#3413	Defect	**GlobalOps – Extraction Tool**: Issue in showing message for all fields are filled in output columns
#3417	Feature	**GlobalOps – Extraction Tool**: Any output values updated directly in excel cell directly should be updated in summary tab as well
#3427	Enhancement	**GlobalOps – Extraction Tool**: change the UI when disabled tick icon and need to show tooltip
#3433	Defect	**GlobalOps – Extraction Tool**: Users able to paste special chars for navigation
#3442	Defect	Error in MEA AI Engine Affecting Submission Flag Symbol Display
#3445	Defect	**GlobalOps – Extraction Tool**: adding values in Output-X column after removing, it is not updating corresponding Page Number-X and Coordinates-X columns
#3459	Feature	**GlobalOps – Extraction Tool**: Save the changes to S3
#3461	Feature	**AI:** Enhance the Platform to call the new Model for AI flow
#3462	Feature	**MEA platform [API]:** Add a new function for storing data in S3 bucket inside Instance Handler
#3466	Feature	**AI:** Replace AZFR OCR with inhouse OCR
#3467	Feature	**UI Automation**: HANDLING FAILURE CASE FLOW WHILE UPLOADING SUBMISSION Part-2
#3468	Feature	**GlobalOps – Extraction Tool**: Populate the name of the user modifying an entity name value in Summary mode
#3470	Defect	**GlobalOps – Extraction Tool**: Changes for edit functionality in summary mode
#3471	Defect	**GlobalOps – Extraction Tool**: Expand/Collapse code conflict with hideEntityNames which has no Output Values
#3475	Feature	**AI:** Script for States abbreviation to full State name

#3477	Defect	**GlobalOps – Extraction Tool**: Issue in showing selected text of bounding box in Entity Name and value mapping popup
#3481	Enhancement	**GlobalOps – Extraction Tool**: Enhancement of Tooltip for Icons in Extraction Tool
#3484	Enhancement	**AI:** Ai Feature Enhancement- Standard Date Format Conversion
#3493	Enhancement	**GlobalOps – Extraction Tool**: Right side view should not change on file change on left side
#3496	Defect	**GlobalOps – Extraction Tool**: Timing issue after drawing bounding box
#3499	Feature	**GlobalOps – Extraction Tool**: Hide entity names for which no output values are present
#3500	Defect	**GlobalOps – Extraction Tool**: Text value changes when clicked on edit having @ symbol
#3502	Enhancement	**GlobalOps – Extraction Tool**: Closing the extraction tool should also save the contents
#3521	Defect	**GlobalOps – Extraction Tool**: Page number, Coordinates and Output X are updating to previous columns.
#3541	Defect	**GlobalOps – Extraction Tool**: Data extraction not working is specific case
#3542	Defect	**GlobalOps – Extraction Tool**: Zoom level does not reset after click on close button
#3567	Feature	**MEA Platform** [API]: Add a common function to add Json and excel file to s3 and then update document table inside instance handler
#3583	Defect	**GlobalOps – Extraction Tool**: Test Instance - Pagination not working in submission list
#3632	Defect	**MEA Platform:** Error- PDF Generation Timeout and Pending Upload Status in RDS
#3633	Defect	**MEA Platform:** Temporary Service Disruption on SharePoint Online: Error Message Encountered
#3641	Defect	**Global Ops QA Extraction tool:** Page number is showing wrong on QA tool

#3663	Defect	**SharePoint-UI :** Upload submission with single quotes in the file name for EML or MSG file, not getting merged xlsx and AI generated excel in the
#3667	Defect	**MEA Platform- UI**: Unable to view submissions in Triage screen
#3671	Defect	**MEA Platform- UI:** Report is not getting generated and showing error message as "Cannot read properties of null"

#3380	Enhancement	**GlobalOps – Extraction Tool**: Bounding box button must be disable when user close and then open the new extraction tab
#3434	Defect	**UI**: Unable to view submissions in Triage when logged in as a Mea-corporate user.
#3441	Feature	**UI Test Automation**: UPLOADING SUBMISSION Failed scenario test automation in a single run
#3444	Feature	**GlobalOps – Extraction Tool**: Clicking on a Output value in Summary Tab should show the exact page number and text highlighted in the left side for a PDF input file
#3446	Feature	**AI:** Donut model inference API using TFServing
#3474	Feature	**AI:** Script: States abbreviation to full state name
#3476	Enhancement	**Support:** Error: PDF Generation Timeout and Pending Upload Status in RDS
#3494	Enhancement	**GlobalOps – Extraction Tool**: Save the changes as an XLSX file to S3 [PART 2]
#3498	Defect	**GlobalOps – Extraction Tool**: When extreme Zoom In is done the image is moving to Left side some portion of the image is getting hide
#3501	Feature	**GlobalOps – Extraction Tool**: Disallow users drawing bounding box around existing bounding box
#3519	Feature	**GlobalOps – Extraction Tool**: Deleting a value in the summary tab should also delete bounding box and co-ordinates
#3520	Feature	**GlobalOps – Extraction Tool**: Deleting a value in the detailed excel should also delete bounding box and co-ordinates

#3564	Enhancement	**Support:** Temporary Service Disruption on SharePoint Online: Error Message Encountered
#3572	Feature	**GlobalOps – Extraction Tool**: Users must be able to delete bounding boxes (part 2)
#3581	Feature	Mea Platform: Acquinex - Mark complete should also invoke monday.com to send data extracted
#3593	Defect	**GlobalOps – Extraction Tool**: Extraction Tool - Bounding box not creating at proper position for saved values
#3596	Features	**GlobalOps – Extraction Tool**: Extract data from Excel sheet on left side to be populated on the right
#3606	Feature	**GlobalOps – Extraction Tool**: On Extreme zoom level either scroll or drag needs to be given
#3607	Feature	**UI Automation:** Mark complete - run validation and Date format failed scenario part 2 Execute in a Single Run
#3612	Feature	**GlobalOps – Extraction Tool**: Make the columns as NOT-Editable in the extraction tool
#3614	Feature	**GlobalOps – Extraction Tool**: Ignore duplicate values returned by AI for the same entity name
#3618	Feature	**GlobalOps – Extraction Tool**: Provide delete icon button next to the edit button in the summary tab
#3621	Enhancement	**AI:** MLOps Automation: Phase 2: Model Training
#3630	Defect	**GlobalOps – Extraction Tool**: Bounding box remains active even on close button click
#3631	Defect	**GlobalOps – Extraction Tool**: When bounding box is active summary output fields should not be clickable
#3640	Feature	**GlobalOps – Extraction Tool**: Provide a swap button to swap output values (Summary Tab)
#3645	Feature	**GlobalOps – Extraction Tool**: Provide the "Show/ Hide Entity Name" in the main tab
#3653	Feature	**GlobalOps – Extraction Tool**: Provide output dropdown options when associating entity name
#3656	Defect	**GlobalOps:** Pagination issue when filter applied
#3664	Defect	**AI:** Model Extracted Data: Same field multiple times extracted

#3665	Enhancement	**GlobalOps Extraction tool:** Add reload button just right after pdf name
#3666	Defect	**AI**: AI Model data extraction defect
#3669	Enhancement	**GlobalOps – Extraction Tool**: For excel data mapping provide output dropdown options when associating entity name
#3681	Defect	**GlobalOps – Extraction Tool**: Highlight value to left side in some cases pdf pagination and sheet row number and highlight not working properly
#3686	Defect	**GlobalOps – Extraction Tool**: File name getting stored in case of pdf
#3699	Defect	Release-29: When a submission is uploaded, seeing additional "In Progress" record in the AuditTxnHistory table
#3702	Enhancement	Include additional attributes as part of header/body when sending the JSON file to the end points
#3704	Feature	**GlobalOps – Extraction Tool**: Summary tab items should not have hyper link if no coordinates present
#3715	Defect	**MEA platform:** Remove AI prefix env in get access token in form Recognizer
#3717	Feature	**GlobalOps – Extraction Tool**: Add pdf icon or excel icon before the Output XX in summary tab
#3720	Defect	**MEA platform:** Acquinex - Monday.com -> Even if the response from monday.com is successful, teams message shows failure
#3721	Enhancement	**GlobalOps – Extraction Tool**: When Entity Name has Only One Output Value Hide Swap Icon
#3722	Enhancement	**GlobalOps – Extraction Tool**: Once the Extraction tool is closed and open, user must see the summary tab view by default
#3730	Enhancement	**GlobalOps – Extraction Tool**: Disable Outside Click for Modal Popup to close
#3755	Enhancement	**GlobalOps:** add 15 sec to refresh interval dropdown
