Release 27

Start Date: 20 June 2023.
Release End Date: 10 July 2023

The following are the New features and enhancements as well as defects we resolved in Release 27

Ticket	Description about ticket	Type of Change
#2764	Error while copying the file to S3 bucket	Defect
#2936	Set the status as "Rejected" for the auto rejected submissions in the platform	Enhancement
#3207	Creating UI Layout Default View to show the Left side and right side in the new QA tool	Feature
#3233	Resolution issue while checking in different systems.	Defect
#3307	To Show the filenames and submission id in the extreme left top of the updated QA tool	Enhancement
#3368	QA tool. Left side back to pdf background colour missing.	UI Bug
#3397	Make white colour instead of black when any pop-up occurs	Bug
#3174	Platform : Misalignment of 'From Date' and 'To Date'.	Bug
#3017	UI: Wait cursor when login is occurring for Login page in MEA platform	Enhancement
#2948	Finnish language attachments are blurred in the QA tool when client using it.	Enhancement
#2575	Address PEN testing findings.	Enhancements
#3007	Developing the QA Tool for user interface.	Feature
#2543	To show the user when user login to mea platform, able to see the assigned group.	Enhancement
#2894	To show if the daylight-saving is set to true, this indicates we need to consider the daylight-saving time difference. So, in a non-daylight mode, the difference.	UI Bug
#2895	Submissions (DF01-FIN): Finnish language attachments are blurred in the QA tool.	UI Bug
#3025	Sign UP: User missed to enter verification code so that user email is labelled as Unconfirmed.	Bug
#3383	Rejection Reason coming false in extract Document lambda function	Bug
#2613	To introduce custom rule for Splitting First_name and last_name from the Broker_contact.	Feature

#2872	To Finetuning Existing Model AI Label to identify AI features/defects.	DevOps
#2881	Ai training data on Ingestion pipeline	DevOps
#3074	Address the issue of Annotation Report Generating Incorrectly -: (Error: File name too long).	Bug
#3222	Development of an API for OCR Extraction from Specified Image Bounding Box.	Feature
#3077	To Develop Accuracy Report with different Business lines.	Feature
#3231	Implementing Annotation Data Distribution Process.	DevOps
#2678	Automate the process to copy client specific AI Model files to a set of client owned buckets across regions.	DevOps

Release 28 & 29 Notes

TICKET ID	ISSUE TITLE	CHANGE
#2726	EFS Integration for faster loading time of model weights	Enhancement
#2752	AI : Error in the log files in meaAiEngine function	Bug
#2954	UI: Not able to see submissions in Triage when search based on LOBCODE.	Bug
#2962	AI Model training and testing	DevOps
#3132	Achieving SOC Type 2 Compliance: Ensuring Security and Trust in the Digital Age	DevOps
#3153	Fetch the Merged file. XLSX file attachment name and extracted file from S3	Feature
#3154	Populate the File list dropdown with the _merged and xlsx filenames	Feature
#3176	QA tool Users must be able to delete bounding boxes	Feature
#3229	API: Test automation execution failed when submission is auto rejected by system	DevOps
#3230	Training Model	DevOps
#3301	Xlsx file UI should be fixed	Enhancement
#3309	Generate Images for the Merged pdf to be displayed in the tool	Enhancement
#3347	Unable to process file with quotes in the file name during single file submission like pdf, xls, doc, etc.	Bug
#3369	mea Platform: Pdf Image Zoom In & Zoom Out	Feature
#3372	Extraction issue for date and multiline extraction	Defect
#3374	QA Tool, When the user clicks on close button (X) check if any unsaved data is present and prompt	Feature
#3381	QA Tool: Highlight the text for which co-ordinates are already present in the extracted file	Feature

#3390	UI Automation: Mark complete- run validation and Date format failed scenario part 1	DevOps
#3398	QA tool - we cannot see the drop down when the bounding box drawn towards the end of the document	Bug
#3399	QA Too Hide entity names for which no output values are present	Enhancement
#3402	QA Tool: Bounding box should remain on the page after associating a value to the Entity name	Enhancement
#3405	QA Tool: Populate co-ordinates, page numbers for multiple values in Output columns	Feature
#3407	Global Ops - Xtract Tool: By default disable tick icon in bounding box popup	Feature
#3408	Change in object of coordinates in right side of qa tool	Enhancement
#3410	QA Tool - Make the Output values to be editable in Summary mode	Feature
#3416	Resetting Annotation Data & Creating Backup for Training Data	DevOps
#3427	Change the UI when disabled tick icon and need to show tooltip	Enhancement
#3442	Error in meaAIEngine Affecting Submission processing status Display	Bug
#3445	QA Tool - adding values in Output-X column after removing , it is not updating corresponding Page Number-X and Coordinates-X columns	Bug
#3461	Enhance the Platform to call the new Model for AI flow	Feature
#3466	Enhance inhouse OCR models for better accuracy	Enhancement
#3467	UI Automation : HANDLING FAILURE CASE FLOW WHILE UPLOADING SUBMISSION Part-2	DevOps
#3470	QA Tool - Changes for edit functionality in summary mode	Bug
#3471	QA Tool - Expand/Collapse code conflict with hideEntityNames which has no Output Values	Bug
#3475	Rule for States abbreviation to full State name	Feature
#3477	Issue in showing selected text of bounding box in Entity Name and value mapping popup	Bug
#3481	Enhancement of Tooltip for Icons in QA Tool	Enhancement
#3484	Ai Feature Enhancement: Standard Date Format Conversion	Enhancement
#3493	QA Tool - Right side view should not change on file change on left side	Bug
#3496	Timing issue after drawing bounding box	Bug
#3499	QATool: Hide entity names for which no output values are present	Feature
#3502	QA tool: Closing the extraction tool should also save the contents	Enhancement

#3512	TypeError: Cannot read properties of null (reading 'processingStatus')	Bug
#3521	New QA Tool : Page number, Cooridnates and Output X are updating to previous columns.	Bug
#3542	QA Tool - Zoom level does not reset after click on close button	Bug
#3563	Unrecognized character escape and null processingStatus error during document creation	Bug
#3567	meaPlatform[API]: Add a common function to add json and excel file to s3 and then update document table inside instance handler	Feature
#3632	Error: PDF Generation Timeout and Pending Upload Status in RDS	Bug
#3641	Page number is showing wrong on QA tool	Bug
#3663	UI: Upload submission with single quotes in the file name for EML or MSG file, not getting merged file	Bug
#3667	UI: Unable to view submissions in Triage screen	Bug
#3671	UI: Report is not getting generated and showing error message as "Cannot read properties of null"	Bug

Release 29

List of feature, enhancements, and Defects

S.no	TICKET ID	CHANGE TYPE	DESCRIPTION
1	#2059	Enhancement	Submission status not updating to "in-progress" after reprocessing
2	#2184	Devops	Upgrading of security and DLP 2
3	#2576	Devops	DB Backup
4	#2923	AIDevOps	MLOps Automation for Training Data Processing and Model Training
5	#2992	Devops	Enhancment for taking a backup of the database and storing it in an S3 bucket.
6	#3015	Devops	Upgrading of Security and DLP Phase 3
7	#3177	DevOps	Streamlining Test Automation with Comprehensive Macrovalidation Documentation
8	#3178	Feature	Enhance platform to support individual documents uploaded in a submission (for Triage, Reporting)
9	#3179	Enhancement	Triage changes must include document_id and submissionidentifier details to update SubmissionsReport

11	#3185	Enhancement	Enhance system to support processing multiple template using "Reprocess Template" for the same submission
12	#3378	Documentation	Documenting the UI Automation Progress
15	#3388	bug	Submissions took more than 5 minutes to get to In-progress status
16	#3400	Bug	Trocr OCR not capturing 2nd line data
17	#3434	Bug	UI: Unable to view submissions in Triage when logged in as a Mea-corporate user.
18	#3441	DevOps	UI Automation: UPLOADING SUBMISSION Failed scenario test automation in a single run
19	#3444	Bug	Clicking on a Output value in Summary Tab should show the exact pagenumer and text highlighed in the left side for a PDF input file
20	#3446	AI-Feature	Model inference api using TFServing
21	#3447	AI-Feature	Model inference api using TFServing
25	#3498	Bug	QATool - When extreme Zoom In is done the image is moving to Left side some portion of the image is getting hide
26	#3501	Feature	QA tool : Disallow users drawing bounding box around existing bounding box
27	#3519	Feature	QA Tool: Deleting a value in the summary tab should also delete bounding box and co-ordinates
32	#3572	Feature	QA Tool: Users must be able to delete bounding boxes (part 2)
33	#3576	AI-Feature	Enhance Accuracy of model generated data
37	#3596	Feature	QA Tool – Extract data from Excel sheet on left side to be populated on the right side
39	#3600	Devops	DevOps: Change the memory and timeout for pdfMerge
40	#3601	Devops	DevOps: Change the memory and timeout for mergeDocuments
41	#3602	Devops	DevOps: Change the memory and timeout for convertToPdf
42	#3603	Devops	DevOps: Change the memory and timeout for extractDocument
44	#3606	Feature	QA Tool - On Extreme zoom level either scroll or drag needs to be given
45	#3607	Automation	UI Automation: Mark complete- run validation and Date format failed scenario part 2 Execute in a Single Run
46	#3610	Bug	QA Tool - Bounding box data copy to right side not working for one scenario

47	#3611	DevOps	Set the pdfImage memory to 768 MB, timeout 60 seconds
48	#3612	Feature	QA Tool: Make the columns as NOT-Editable
49	#3614	Feature	Ignore duplicate values returned by AI for the same entity name
50	#3617	Bug	QA Tool: Date and mail ID's are not properly extracted in bounding box.
51	#3618	Feature	QA tool : Provide delete icon button next to the edit button in the summary tab
53	#3621	AI-Feature	MLOps Automation: Phase 2: Model Training
55	#3630	Bug	QA Tool - Bounding box remains active even on close button click
56	#3631	Bug	GlobalOps - Xtract Tool - When bounding box is active summary output fields should not be clickable
59	#3640	Feature	QA Tool: Provide a swap button to swap output values (Summary Tab)
60	#3644	AI -Feature	Model training and testing
61	#3645	Feature	GlobalOps : Extraction Tool - Provide the "Show/Hide Entity Name" in the main tab
62	#3653	Feature	QA Tool : Provide output dropdown options when associating entity name
64	#3660	Bug	Error: Chunk Size Mismatch in Bytes Array Processing
65	#3664	AI-Bug	Model Extracted Data: Same field multiple times extracted
67	#3666	AI_Bug	Model data extraction defect
69	#3681	Bug	QA Tool - Highlight value to left side in some cases pdf pagination and sheet row number and highlight not working properly
76	#3702	Enhancement	Include additional attributes as part of header/body when sending the JSON file to the end points
77	#3703	Support	Increase Task Timeout to 45 Seconds
78	#3704	Feature	QA : Summary tab items should not have hyper link if no coorindates present
79	#3706	Support	Error while Parsing Compound Binary File and Extracting Message Contents
80	#3715	AI-Bug	Remove AI prefix env in get access token
81	#3717	Feature	QA tool: Add pdf icon or excel icon before the Output XX in summary tab
83	#3721	Enhancement	QA Tool - When EntityName has Only One Output Value Hide Swap Icon
84	#3722	Bug	QATool : Once the Extraction tool is closed and open, user must see the summary tab view by default

			QA Tool - Disable Outside Click for Modal Popup to close
85	#3730	Bug	
87	#3733	AI-Feature	Create code deployment pipeline for AI model.

RELEASE 30

Release Start Date: 3rd-AUGUST-2023
Release End Date: 31ST AUGUST-2023

Ticket ID	Issue Description	Change Type
#4082	**QA** Tool: Swap functionality working incorrectly in case of hide empty entity	Bug
#4054	**QA Tool:** Extraction Tool Bounding box is not deleting	Bug
#4051	**MEA Platform:** Platform - provide a flag to display the old or the new QA tool	Feature
#4022	**QA** Tool: While creating Bounding box Output dropdown is not showing Output values enabled	Bug
#3906	**MEA Platform**- UI Automation: Mark complete run validation and date format Data Base validation part 3	Test Automation
#3886	**MEA Platform**- UI Automation: Failed scenarios for Date Format for Mark complete JSON	Test Automation
#3872	**MEA Platform**- UI Automation: Mark complete run validation and date format Validate	Test Automation
#3743	**MEA Platform**- UI Automation: Success flows for Mark complete JSON Part 1	Test Automation
#3739	**MEA Platform**- UI Automation: - Create new submission flow to be executed in a single run	Test Automation
#3568	**MEA Platform**- UI Automation: Mark complete- run validation and Date format failed scenario's part 3	Test Automation
#3565	**MEA Platform**- UI Automation: Mark complete- run validation and Date format failed scenario part 1 execute in a single run	Test Automation
#3460	**MEA Platform**- UI Automation: Mark complete- run validation and Date format failed scenario part 2	Test Automation
#3412	**MEA Platform**- To date is misaligned for processor role when zoom percentage is 80%	Bug
#3940	**QA** Tool: Output 1 on edit and clearing its value closes the extract tool	Bug
#3544	**QA** tool: Case sensitivity needs to be ignored for entity name and output for creating right side summary view	Bug
#3737	Client: Mark Complete should send the JSON to the PAS end point-part2	Feature

Ticket ID	Issue Description	Type
#3738	AXIS: Mark complete implementation Integration with AXIS End point	Feature
#3741	**AI:** Annotation Data: Resetting folders and Providing Annotated data for training	AI-Feature
#3742	**QA** Tool: Conflict with Bounding box coordinates in all pages	Bug
#3802	QA Tool: Draw bounding box in blank area and associate entity name	Bug
#3807	**MEA PLATFORM UI:** 'Home	Build Info' and '2023 mea platform' should be fixed when zoom percentage changes.	Bug
#3809	**QA** - When click on Edit button need to check the Output values enable and disable scenarios	Bug
#3896	**MEA platform:** Add check for output column when uploading new template	Feature
#3917	**AI**: Selection of an Image Annotation Tool Supporting Multi-Valued Entities	AI-Feature
#3929	**AI:** Accuracy Script: Created new accuracy Script as per new requirements	AI-Feature
#3895	**QA** Tool - On Extreme zoom level pdf data is cut	Bug
#3899	**AI:** Integration of Entity Extraction and OCR for Word-Level Mapping	AI-Feature
#3935	**QA** Tool: QA tool data loading takes 10-12 seconds	Bug
#3973	**QA**Tool -Show zoom percentage when clicked on zoom icon	Feature
#4021	**GlobalOps:** Populate the Co-ordinates values returned by AI engine into the extracted file	Feature
#4041	PART 2: - Format Currency validation on entity names	AI-Feature
#4042	PART 3: - Max characters validation on entity names	Feature
#4044	PART 5: - Check coverages entity value	Feature
#4133	**AI:** Extend the co-ordinates by 4 pixels	AI-Feature
#4190	**Platform:** Update OCR extraction	Enhancement

Release 31

Start Date: 18- August -2023
End Date: 20st-Sept-23

Ticket ID	Issue Description	Type
#4495	Policy date field Issue	AI-Bug
#4452	API: Restrict api user to upload submission file size in MB greater than submission max file size in MB allowed	Bug
#4434	Platform: Update Full OCR call to handle and by pass errors	Enhancement

#4281	Implementing AI specific parameter for date formatting	AI-Feature
#4160	After applying post processing rule for extracted entity Bounding box match is not being found	AI-Bug
#4128	Create deployment pipeline for AI model.	AI-Feature
#4089	Client : Support AzureAD as the SSO for mea platform	Feature
#4081	Client : Create deep links to the QA tool for the submission	Feature
#4019	Populate AI fields values based on location using geolocation APIs	AI-Feature
#4013		
#3942	Create a new lambda function on platform for taking a periodic DB backup.	DevOps
#3919	AI: Consolidate the AI specific parameters into one Parameter	AI-Feature
#4504	UI: Report is not getting generated and showing error message as "Cannot read properties of undefined"	Feature
#4477	UI: Initial 'Send QA Tool' Submission Data Doesn't Populate for New Submissions and Old QA tool	Bug
#4476	Single file submission with quote in it not able to mark complete.	Bug
#4474	UI: In New QA Tool, Overwriting Output 1 Value Fails	Bug
#4425	UI- Old QA tool: Unable to navigate different pages in QA tool when coordinates and page number present in uploaded excel files	Bug
#4424	New QA Tool : Hide Finish Processing button	Feature
#4370	UI:Spinning Wheel Appears on Zoom In/Out in 'New QA Tool' UI Platform	Bug
#4367	UI: Login Page Not Displayed on Refresh, Direct Login Without Credentials	Bug
#4288	UI Automation- QA Tool: Modify, Add and Delete data in Uploaded submission excel file in QA tool Part 2	Test Automation
#4287	UI Automation- QA Tool: Modify, Add and Delete data in Uploaded submission excel file in QA tool Part 3	TestAutomation
#4286	Full ocr api batch pageNumber mismatch	AI-Bug
#4285	AI following wrong output sequence while pasting data to template	AI-Bug
#4277	Platform: Update payload in Full OCR extraction api	AI-Feature
#4258	Invalid json format for full ocr	AI-Bug
#4231	UI Automation- QA Tool: Modify, Add and Delete data in Uploaded submission excel file in QA tool Part 1	Test Automation
#4423	UI Automation: - Create a separate script to run test cases for envs	Test Automation
#4221	New QA Tool : Provide a Send QA data button and Text field (similar to Old QA Too)	Feature
#4199	UI: Pagination issue when searching with filters in UI	Bug

#4120	Platform - New QA Tool : Bounding boxes are not appearing for fields having coorindates	Bug
#4112	New QA Tool : Unable to associate a bounding box to an entity name	Bug
#4106	New QA Tool : Unable to view the pdf and entity names	Bug
#4075	Client: Enhance CRM response to use specific board_id based on mailboxes	Feature
#4052	QA Tool - Restrict zoom to 200% max	Feature
#4049	Implement Full OCR for Search in QA tool - Part 1	AI-Feature
#4033	Implement additional macro rules for entity names - client requirement	feature
#3883	Self Service Template Creation - Design Flows	New UI
#3719	QA tool: Getting Failed to load for aitest_eml.pdf 2nd page	BUG
#3703	Increase Task Timeout to 45 Seconds	DevOps
#3518	QA Tool: In case of "search by text" Highlight the text for which co-ordinates are already present in the extracted file	Feature
#3474	Script: States abbreviation to full State name	AI-Feature
#3173	QA Tool - Users must be able to search for a text in the Left side of the merged file	Feature

Release 32

Release start Date	15th September 2023
Release End Date	19th October 2023

Ticket ID	Description	Change Type
#5127	UI: Report is not getting generated and showing error message as " Worksheet name already exists"	Bug
#5113	Update Extraction and OCR Tools	AI-Feature
#5062	date module is failing to extract date from a string if 2 dates are present	AI -Feature
#5061	QA Tool (old and new): Hide the Send QA Text field based on a configuration	Feature
#5047	Platform - New QA Tool: Change the Send QA Data Action button	Enhancement
#4997	Automatic Filtering of Unusable Images for Annotation through data conversion process	AI -Bug
#4994	New QA tool:Reduce bounding box thickness	Enhancement

#4993	QA Tool- When we draw bounding box on zip code it is taking the values in date format.	Enhancement
#4952	QA tool- Delete icon not able to see for output 1 and also able to delete output 1 value while output 2 value is present.	Bug
#4947	Upload submission: After uploading submission select file is not resetting.	Bug
#4929	Archived submission in New QA tool showing finish icon	Bug
#4911	Setup a new CNA client instance preprod in Canada	Devops
#4760	New QA Tool: Sometimes the Edit and Delete functions do not work properly.	Bug
#4760	New QA Tool: Sometimes the Edit and Delete functions do not work properly.	Bug
#4699	Not ble to search for the submission by pressing Enter key.	Bug
#4695	Issue while extracting broker_contact_firstname , broker_contact_lastename and state	AI-Bug
#4678	Annotation Data Reset and Training Data Preparation	AI-Feature
#4673	Verify address: need to allow users to enter alpha numberic chars	Feature
#4662	Ai defect feature : Swapping Broker contact name	AI-Bug
#4658	Optimize MEA Platform Submission History View API and React Component(Multiple Request is calling)	Enhancement
#4657	QA tool:- Bounding box showing delete and X icon that is created from search result	Bug
#4653	Requirement: Rejection of Images not Containing Extraction Data or Only Picture is present	AI-Feature
#4645	UI: "Old QA tool"- Unable to delete output 1 value when output 2 and other outputs are present, Unable to add values to output 2 and other outputs when output 1 is empty	Enhancement
#4637	Provide a "Show Archived" checkbox to allow searching for submissions from the archived table	Feature
#4630	"New QA tool" Unable to input a value into 'Output 2' when uploading a template with 15 output columns, even if 'Output 1' already has a value.	Bug
#4594	UI Automation: Restore Previous Settings After running UI Automation	Test Automation
#4593	QA Tool: Unable to enter values in Output column, showing error in console.	Bug
#4588	"New QA tool ": Restrict adding value in output 2 and output 3 when Output 1 value in e-excel is blank	Bug

#4522	create a logout route, to kill and clear session if logged in	Feature
#4512	New QA tool - row Index issue conflict when we have multiple output columns	Bug
#4495	Policy date field Issue	AI-Bug
#4489	UI automation: Create submission through UI for running Phase 3.A	Test Automation
#4482	UI: "Send QA Data" icon remains visible in New QA Tool despite 'DISPLAY_SEND_QA_DATA' set to false in parameter "	Bug
#4457	ATool - Old searched bounding box is present on new searched word	Bug
#4454	UI automation: browser screen must fit to entire system screen	Bug
#4402	UI: Not able to delete bounding box in New QA tool in Platform	Bug
#4394	QA tool : Display page number, confidence score and co-ordinates present or not in the summary tab	Feature
#4275	Implement solution to fetch details for street address and zipcode - ticket #4019	R&D
#4126	QA tool : Display confidence scores in summary tab	Feature
#4050	Standardising Date formatA	AI-Bug
#3885	AI: Duplicate data is being populated by the AI with differing case sensitivities.	AI-Enhancement
#5114	Script for removing duplicate data for ai-field (Defect)	AI-Feature
#5042	Support sending QA data using Access token	Feature
#4696	API: Error Handling: Display 'Invalid Template' Message for QA Feedback Sent with Different Templates	Bug
#4930	When show archived is enabled, in the search, we should only show submission ids from archived Documents	Bug
#4876	API: Unable to upload QA feedback file when "Default Template" is used	Bug
#4747	UI Automation: Remove manual instance selection from automation code	Bug
#4680	UI Automation: Fetch the records from specific query and generate an excel file.	Test Automation
#4674	Date standardisation enhancement	AI-Enhancement
#4666	UI Automation: While running multiple scenario or automation in multiple browsers getting warning pop-up	Test Automation
#4565	Date Issue and Path for deployment pipeline	AI-Bug

#4547	New QA Tool: Detailed Excel-Not able to see all the Output columns when the showColumn value is set to 'All' in System Parameter	Bug
#4523	Regression scenario	Test Scenario
#4487	UI automation: Create submission through API for running Phase 3.A	Test Automation
#4281	Implementing AI specific parameter for date formatting	AI-Enhancement

Release 33

Start Date: 20-Oct-2023
End Date: 8-Nov-2023

Ticket ID	Description	Change type
#5098	Date Format Issue: 'Month-DD-YYYY' Not Extracting as 'YYYY-MM-DD' in New QA Tool	Bug
#5097	UI: 'Enable Tour' Setting Doesn't Display Proper Positions for Submission Creations	Bug
#4995	QATool: SOV and Loss Run Files	Feature
#4986	UI: For Old QA, Disabling of Vertical Button in the Top-Left Corner When 'Show Archived' is checked.	Bug
#4965	Upload submission: Not showing total number of single file attached for creating submission	Bug
#4711	UI: After selecting country code and click anywhere outside the drop-down then not able to close the drop-down	Feature
#5162	API Error Handling: Displaying 'Invalid Template' Message for QA Feedback Sent when Custom template used	Bug
#5163	client : Change "Federated Sign in" button label to "Single Sign-on (SSO)"	Change Request
#5015	New QA Tool : Support Zooming of pages using mouse scroll	Feature
#5116	New QA Tool : Hide "Send QA Data" button if the submission is from "archived" state	Feature
#5312	JSON Download - Control the Columns that can be downloaded in JSON	Feature
#5283	API Automation: Automating submission ID updates.	Test automation
#5277	UI: Tour should start from New Submission and also include 'Next' button for navigation to next step.	Enhancement
#5270	API Automation: Generate report	Test automation
#5557	Automate find-similar API Service Restart with Supervisor	AI-Feature
#5538	Platform: Handle integer value for broker zip in max character macro rules	Bug
#5480	New QA Tool: Individual file are not visible in the left side.	Bug

Tickets ID	Description	Change type
#5451	Submission: Unable to read template when submission is created with default template	Bug
#5447	New QA Tool: Bounding box giving error in case of individual file[HOTFIX for REL - 33]	Bug
#5399	Old QA tool: Left side excel data showing first column data in all columns	Bug
#5334	API: Send QA Feedback giving error Invalid template	Bug
#5188	Fetching instance details directly from instance Handler to platform	Feature
#5186	New submission: Upload button enabled when no file selected and user able to create submission.	Bug
#5114	Script for removing duplicate data for ai-field (Defect)	AI-Bug

Release 34

Start Date: 06-Nov-2023
End Date: 13-Nov-2023

Tickets ID	Description	Change type
#5657	Remove the -missing sheets for Brit flows in the second transform action	Enhancement
#5635	Multiple confidence score columns shows NaN as the value in the downloaded JSON	Bug
#5537	New QA Tool: doc/docx/ppt/pptx files not viewable	Bug
#5453	QA Tool: Draw bounding box without clicking on button everytime	Enhancement
#4992	UI Automation : Failed scenarios while executing submissions parallel	Test automation
#4487	UI automation: Create submission through API for running Phase 3.A -	Test automation
#5588	Testing AO model outputs	AI
#5414	UI: Tour remains active for Old QA Tour after closing the Old QA Tool	Bug
#4398	Mapping Input & Output Header Columns for SOV & Loss Run files	Feature
#5384	API Automation: Generate html test report	Test automation
#5351	API automation: Automation is failing due to dynamic submissionID	Test automation

Release 35 Notes

Release Start Date: 14-Nov-23
Release End Date: 28-Nov-23

Ticket ID	Description	Change
#5928	Transform Enhancements to support address validations	Enhancement
#5902	Accuracy Report	AI-Report
#5873	underwriter enhancement for different clients like	AI
#5866	AI -Underwriter_technician_email_ID populated wrong value in output column.	AI-Bug
#5839	API automation: run test automation with Custom template	Test Automation
#5840	API automation: Download file which is used to create submission	Test Automation
#5826	Fix: Coordinates Generating is coming as "None" for some fields	AI-Bug
#5824	QA Tool: User able to draw bounding box, when bounding box draw in small area (Blank area). or bounding box stretched outside the show pdf region	Bug
#5836	Code cleanup - Remove warning and errors coming in terminal/console	Enhancement
#5798	underwriter_technician_email_ID and underwriter AI field values not getting populated in the extracted file	AI-Bug
#5795	QA Tool: Getting TypeError when Opening Excel from clicking Generic Button	Bug
#5793	Entity highlighting persists after switching sheets in PDF file for New QA Tool.	Bug
#5753	client - Convert output to client specific JSON schema when Downloading the JSON file from API - Part 3	Feature
#5752	client - Convert output to client specific JSON schema when downloading the JSON file from UI - Part 2	Feature
#5751	client - Convert output to client specific JSON schema when pushing the output to Client end point - Part 1	Feature
#5740	New QA Tool: Changes made in excel in new QA Tool getting reflected in extracted excel file	Bug
#5739	New QA tool: Handle submission id case sensitivity while saving	Bug
#5708	Support to send all columns present in the extracted file in the JSON output file	Enhancement

Ticket ID	Issue Description	Type
#5707	Support client responses to be sent to client end point even if run-validations disabled	Enhancement
#5670	Implement Email Notification for Rapid Process Restarts in Supervisor	AI-Feature
#5668	Extracting UnderWriter details Using Regular expression from OCR Data-Part 2	AI-Enhancement
#5667	API automation: Display error message is not clear in HTML report	Test automation/Enhancement
#5666	API automation: Include two API in API test automation	Test automation/Enhancement
#5642	Underwriter Details extraction using Regular Expression from OCR extraction	AI-Feature
#5603	Change of broker_contact to broker_contact_first_name and broker_contact_last_name in templates & testing it on submissions	AI-Enhancement
#5519	Create Documentation for AI Model API Deployment and Monitoring	AI-Documentation
#5510	QA tool: Unable to delete bounding box	Bug
#5504	UI Platform: Search Submission ID blank in Page 1, visible in Page 2.	Bug
#5428	New Submission: Upload button disabled while creating submission	Bug
#5386	UI Automation: Fixed failed scenarios for submission, and dataValidation spec files	Test Automation
#5385	UI: New QA tool- Bounding box disappears from PDF after clicking on entity name extracted from excel	Bug
#5368	QA Tool - Display dropdown values for entity output xx columns picking it from template	Feature
#5273	Model upgrade for better accuracy	AI_Feature
#5112	UI Automation: Optimise login process for parallel test cases	Test Automation
#4992	UI Automation : Failed scenarios while executing submissions parallel	Test Automation

Release 36

Release start date: 27-Nov-2023
Release end date : 27th Dec-2023

Ticket ID	Issue Description	Type
#6503	New QA tool: Unable to delete bounding box	Bug

#6445	New QA Tool: Phase2 - SOV/Loss Run - Disable Save & Transform initially in View Mapping	Bug
#6438	GlobalOps: Annoatation tool - Remove \n at the end of the value in JSON	Bug
#6421	NewQA Tool: Phase2 - SOV/Loss Run - Part-7f - When mapping is done change status to QA Uploaded	Enhancement
#6403	New QA tool: When trying to scroll the Entity Names dropdown in B.box Mouse Scroll causing issue	Bug
#6383	NewQA Tool: Phase2 - SOV/Loss Run - Part-7e - Remove icons	Enhancement
#6358	Meaplatform : Don't Require SOV/Loss Run feature	Enhancement
#6351	New QA Tool: While deleting from summery tab, its removed the confidence score	Bug
#6332	Not able to download .eml file after clicking download icon when enabled, It is stuck with loading pop up	Bug
#6313	Extracted excel file columns should be dependent on jsonDownloadColumns column names	Feature
#6312	SOV/Loss run -Sheet Number Not Updating	Bug
#6296	QA Tool : Not able delete bounding box when single output having two or more values	Bug
#6281	Populate the source file name and source page number for bounding boxes in the QA tool- Part 3	Feature
#6280	Populate the source file name and source page number for AI generated data in the extracted file output - Part 2	Feature
#6276	Generate the source file name and corresponding page number - Part 1	Feature
#6275	QA Tool: SOV/Loss Run-Cancel button in extraction tool's View Mapping modal not functional on first attempt	Bug
#6273	QA Tool SOV/Loss Run - Highlighted color should get removed when uncheck the Output header column.	Bug
#6267	QA Tool: SOV/Loss Run- NULL value not updating in JSON file when user did Remove Mapping	Enhancement
#6250	New QA: Tool-User not able delete bounding.	Bug
#6245	QA Tool: Phase2 - SOV/LossRun column mapping is reset if Next button is clicked again.	Bug
#6240	QA Too : SOV/Loss run- Unable to Click Cancel Button After Uploading .eml or .msg file and Clicking 'View Mapping'	Bug
#6231	QA tool: SOV/Loss run - Input & Output files not getting updated after map/unmap the header columns	Bug

#6227	QA Too: Phase2 - SOV/Loss Run - Part-6L - All the data should be the same when transform for Input & Output files	Enhancement
#6216	QA Tool: Phase2 - SOV/Loss Run - Part-6k - Highlight the color of Input Header Column when output cell value is clicked and also checked	Enhancement
#6205	API: Get status of all documents for a submission API getting 200 response for wrong submissionID	Bug
#6201	New QA Tool: Missing UI consistency for the action icons	Bug
#6200	New QA too: Phase2 - SOV/Loss Run - Part-6i - View Mapping - Pagination for Mapped & Unmapped lists	Feature
#6197	API Automation: Incorrect Submission ID Format and Spelling in Report	Bug
#6171	QA Tool -Not able to see the vertical scroll bar in the extraction tool for SOV/Loss submission	Bug
#6170	QA Tool : Phase2 - SOV/Loss Run - View Mapping data not updating properly	Bug
#6159	QA Tool: Phase2 - SOV/Loss Run - Part-6h - View Mapping - Search functionality for Mapped & Unmapped tabs	Feature
#6158	QA Tool: Phase2 - SOV/Loss Run - Part-6g - Store all the Sheets Data in the JSON	Feature
#6140	Underwriter Extraction Enhancement	AI-Enhancement
#6115	QA Too: Phase2 - SOV/Loss Run - Part-6e - Hide Entity Name & Confidence Score values in Output Header Col Dropdown	Enhancement
#6087	New QA Tool: When we typed a word into the search bar, need to see the Next or Previous buttons	Bug
#6069	QA tool: Mutli line annotation	Feature
#6056	QA Tool: Phase2 - SOV/Loss Run - Part-6d - Highlight the color of the Input Header Column Nam	Feature
#6055	QA Tool: Phase2 - SOV/Loss Run - Part-6c - Checkbox for Output file Header Column Names	Feature
#6046	QA Tool: Phase2 - SOV/Loss Run - Part-6b - Selected Input Header Column Names on top of the excel	Feature
#6027	QA Tools: Phase2 - SOV/Loss Run - Part-6a - Remove Serial Numbers for Excel views	Feature
#6021	QA TOol: SOV/Loss Run - View Mapping - Remove Mapping not working	Enhancment
#5961	QA Tool: Phase2 - Part-3i - Show the Existing stored data coming from JSON	Feature
#5949	New QA TOol: Phase 2 - SOV & Loss Run - View Mapping - Getting extra scroll	Bug
#5948	QA Tool: Phase2 - Part-3h - Store inputs from user under the s3 bucket in a JSON File	Feature

#5931	Old QA Tool: Missing Close Button Icon in Popup after Editing Old QA Tool	Bug
#5912	Firefox Browser: Not able to check in the retain checkbox inside output dropdown	Bug
#5911	New QA tool : While editing from the summary tab, not able to put space after the text	Bug
#5909	New QA Tool: Not able to delete text in the summary tab.	Bug
#5908	New QA tool: Unable to Disable Bounding Box After Extension Beyond PDF Boundary in Extraction Tool.	Bug
#5907	New QA TOol: Phase2 - Part-3g - SOV/Loss Run - View Mapping - Unmapped tab - Edit & Delete functionality	Feature/QA Extractiontool
#5841	API automation: Validate associated default template and wrong LOBCode, CCode	Test Automation
#5840	API automation: Download file which is used to create submission	Test Automation
#5839	API automation: run test automation with Custome template	Test Automation
#5832	Confidence score showing incorrect format if multiple Confidence score present	Bug
#5802	QA tool: After drawing the bounding box on the empty space, it is necessary to continue drawing the bounding boxes.	Bug
#5799	New QA tool: Bounding box border color changes after switching files.	Bug
#5759	QA Tool: Phase 2 - Part-5a - Multi-select dropdown for Output Header Column Dropdown	Feature
#5666	API automation: Include two API in API test automation	Test Automation
#5602	API Automation: Ensure uploaded xlsx input file data should be matched with json file data(use get single document API)	Test Automation
#5582	API: Get list of Document Names for a submission API getting 200 response for wrong submissionID	Bug
#5515	QA Tool: Phase2 - Part-4c - View Mapping - Unmapped Tab - Save & Transform	Feature
